PROFILE

GENERATOR HIRING | SERVICING | ELECT PANEL | CHEM EARTHING | OIL & BATTERIES

We introduce ourselves as one of the leading houses in providing sales, services, spares and hiring of diesel generators. A renowned organization with a vision to provide quality services with silent generators and technical excellence. We, synonymous with quality, reliability and perfection, are one of the leading names in providing power generation solutions. The rental services are applicable in various domains, be it for official, industrial or commercial usage. The company **KRISHNA POWER GEN** provides you Total Solution for your needs related to Diesel Genset & Electric power. This is governed by Ex. Cummins & Kirloskar Engineers & Executives. We provide sales, service & parts support for Cummins, Kirloskar, Mahindra & Perkins DG Sets. We would like to inform you that we have a team of Mechanical & Electrical Engineers who are well qualified & competent to carry out repairs and to maintain the D.G. Set round the clock.

KRISHNA POWER-GEN governed under supervision of Mr. **Brijesh Upadhyay**, who is a CUMMINS in plant LHP & HHP trained Engineer (1996 Batch) and he was associated with OVN TRADING ENGINEERS Pvt. Ltd. (authorized service dealership of **CUMMINS India Ltd.** for Delhi & Noida Region) as Deputy Manager from 1995 to 2009.

Mr. Adi Shankar Tiwari (MBA) is Manager HR & Marketing, having 15 years' experience in his field.

Mr. Rajeev Ranjan Kumar Singh (DME) is Manager Services, previously worked with OVN Trading for 7 Years, Cummins Sales & service Delhi for 3 Years, Power Parts (Auth. Distributor PERKINS India) Gurgaon for 4 years.

Mr. Farooque Sayeed (B Tech. Mech.) is associated with us as Service Manager for Mechanical Services.

Mr. Raju Singh (B Tech. Elect.) is associated with us as Electrical Chief for LT & HT Services.

Mr. Amarjit Kumar is associated with us as Electrical Er. for LT & HT Services.

KRISHNA POWER-GEN will be fulfilling your power requirements thru supply of **CUMMINS; KIRLOSKER & JCB DG Set from 5 KVA to 1000 KVA & YC-Europe GmbH / DEUTZ (Germany); Mahindra; Leyland PNG GAS Generator**, bring solutions for your all power needs.

OUR VALUE ADDED PRODUCT & SERVICES

- Sale & Service of CUMMINS / KIRLOSKAR / MAHINDRA/PERKINS/DEUTZ DIESEL/GAS Generators
- Acoustic Enclosures / Room Acoustic
- Chemical Electrode Rod Safe Earthing performance guaranteed for 10 years
- Shifting, Installation & Commissioning of DG Set, SUB Station And other Machinery
- Engine Oil / Industrial Oils
- Air Fluid Coolers; Heat Exchanger to Coil Cooler Conversion
- On site Radiator/HE Descaling; Overhauling; Residential Silencer.
- POWER Make Spring Loaded AVM Pads, Auto cut Static Battery Charger, AVR & AMF Panel
- Power On Rent 15 KVA To 1000 KVA DIESEL/GAS Generators Maintenance Free EXIDE/AMARON Lead Acid & VRLA SMF Batteries- For GENSET, Commercial Vehicles & UPS
- Re Powering & Replacement; Recon Dg Sets
- Annual Maintenance Contract; Operation & Maintenance Contracts; Heat Recovery Units; Reconditioned Components \Engines Vibration Free Roof Top Installation
- Dual Fuel System & Carbon Cutter for Dg Sets

☐ *We look forward to serving you for all your future power needs with the experience of our Sales and Service support to bring to you "Total Advantage".*

Generator Hiring

On the bases of customer requirements, we provide silent DIESEL/GAS Generators for hiring purpose up to 1000 KVA for varied consumer and commercial application. The DG sets are perfectly maintained uninterrupted peace of mind and hassle-free operation provided on monthly and annual contract basis. We have emerged as major suppliers of Gensets to varied segments of industry such as small to large scale industry including sectors like hospitality, banking, telecom, Technology Park, construction, etc.

Generator Service and AMC

Based on the requirement of clients we are also providing repairing services for all types of DG set up to 1000 KVA. We have technicians and engineers who hold extensive experience of the generator power industry including:

- Technical expertise & experience engineers available for prompt services, overhauling and annual maintenance contract for generators.

Power generation being an emergency service sector, we are set to provide round the clock services. We also undertake annual maintenance contracts of all types of diesel generators sets on time bound bases. The span of experience in the field helps us in attending all types of faults and regular services on all types of engines and alternators.

Advantages of Annual Service Contracts

- 24 hours/7 days prompt dependable and quality service
- Use of special and Diagnostic tools & Genuine spares
- Cuts down repair cost
- Reduced down time Faster Communication

We are the Authorized Dealer/Stockist for:

• Valvoline Cummins Ltd.

It is a joint venture company of Valvoline Inc, USA and Cummins diesel sales and service India Ltd. The product range of VLC includes high quality automotive and industrial lubricants such as engine oil, cutting oil, grease, and transmission oil for CNG turbocharger engines. Valvoline is one of the fastest growing brands in the country.

• AUTHORIZED DEALER EXCID BATTERIES & AMARON LEAD ACID & VRLA

- Sealed maintenance free battery, delivered in factory charged and ready to use condition. This claims to be the country's first battery for commercial vehicles & Gensets with spill-proof and flat top design. High Cranking Current & Low Self Discharge - Maintenance Free - Assured start even after idle condition for long duration - High Electric Conductivity

• AUTHORIZED DISTRIBUTOR HBL GEN ON PURE LEAD TIN (PLT No ACID) ZERO MAINTENANCE INDIA'S 1ST GENSET BATTERY

- GEN ON batteries are specifically designed for reliably starting Generators. GEN ON is manufactured by HBL, a long-life battery technology – when others have been replaced, GEN ON will still be working for you. GEN ON is using state-of-the-art; Pure Lead has an unmatched peak power performance due to its thin plate design. This is a sealed maintenance free battery with no topping up required for life. This is same Cummins Pulse Lite Batteries.
- SUPERIOR FEATURES : High cranking current capability. Hence, smaller & lighter batteries for the same job. Zero Maintenance: No Specific Gravity checks, No top-up of DI water during its life-time. Factory charged: Delivered in filled and charged condition (Ready to use). Battery terminals with copper alloy: High electric conductivity, wear and tear reduced no loose contacts or sulphation of terminals. Low self-discharge: Ensures the START even after idle for long durations.

• AUTHORIZED STOCKIST FLEETGUARD FILTERS PVT LTD

Fleetguard Filters Private Limited (FFPL) is incorporated with Cummins Filtration U.S.A. Fleetguard providing world class filtration solutions for both on and Off-highway applications. Air, Lube, Fuel, Hydraulic and Water Filtration to Coolants & Chemicals; all of our products have emerged as a symbol of trust. Fleet guard are the only original filters for Cummins engines and OEM supplier to Ashok Leyland, Caterpillar, Eicher Motors, Ingersoll-Rand, Kirloskar, L&T, John Deere, Tatra, Telco and Telcon.

• Federal Mogul – FP Diesel Engine Parts

Federal-Mogul Corporation is a leading global automotive supplier offering the most comprehensive portfolio of quality products, trusted brands and creative solutions to the automotive aftermarket. No other parts manufacturer comes close to matching Federal-Mogul Corporation's portfolio of power brands in terms of reputation and loyalty among customers.

• POWER-GEN CHEMICAL ELECTRODE SAFE GEL EARTHINGS

POWER-GEN Safe GEL Earthing Electrodes creates an optimal electrical connection to earth with a large conductive surface. The earth/electrode interface is further enhanced by conductive backfill and electrolytic salts, ensuring a consistent path to ground.

The POWER-GEN Safe Earthing Electrode Advantages are :-

Low-Impedance Grounding : The POWER-GEN Safe Earthing Electrode uses advanced engineering to achieve a consistent, low-impedance, electrical connection with the earth, even in unfavourable and varying ground conditions (like permafrost).

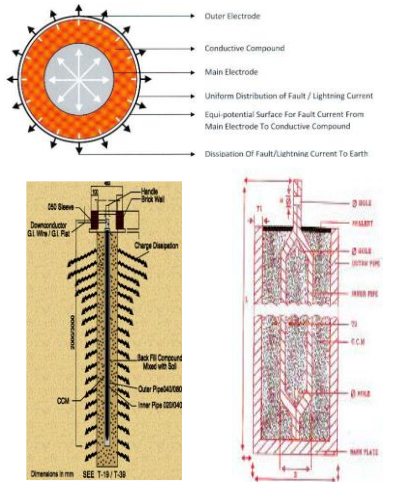

Large surface area: The wider 25/8-inch diameter provides a larger surface area for a better connection to the earth.

Electrolytic salts: In the presence of moisture, these salts dissolve and seep out of leach holes along the electrode. The salts continually increase the soil's conductivity, further reducing impedance and resistance.

Soil augmentation: POWER-GEN Fill is a combination of organic soil materials which optimize the conductivity of the soil around the Earthing Electrode. Increasing the amount of POWER-GEN Fill can decrease the overall system resistance, increasing the system efficiency.

Maintenance-Free: This is maintenance free Earthing., no need of extra water pouring at regular interval as in conventional Earthing, because it retains the moisture.

Consistency: Continuously maintains the same (approx.) earth resistance value over time regardless of soil and climate conditions. Unlike a standard copper plate/rod, the stability of the Safe Earthing Electrode will remain constant over the life span of the plate/rod, and the resistance of the electrode is less affected by adverse climatic conditions. Adequate galvanization, highly conductive, No corrosion, eco-friendly and a long and reliable life (Fit and Forget)
